## Skills

---

- Python skills
- Database management skills
- JavaScript skill
- Computer hardware and software skill
- Excell skill
- Microsoft word skill
- Web and computer programming
- Mathematics skill
- Economics skill
- Reading skill
- Writing skill
- Communication skill
- Empathy skill
- Problem solving skill

## Projects

---

- **Library management system**  
I've made big project of library management system by using c# programming skills. software program that helps in simplifying the daily operations of the library. As we know the purpose of a library management system is to manage & track the daily work of the library such as issuing books, return books, due calculations, etc.
- **Banking system project**  
I made a simple console based system which is very easy to understand and use. Talking about the system, it contains all the basic functions which include creating a new account, view account holders record, withdraws and deposit amount, balance inquiry, closing an account and edit account details.
